50X1-HUM

1. With the object of centralizing the administration and investments of industrial electric power plants, the PKPG (State Economic Planning Commission) has decided to subordinate them all to the Ministry of Power. Formerly the plants were under the control of the ministries concerned, through the intermediary of the factory managements. The new form of control affects the exploitation of electric power as well as investments.
2. The PKPG has given instructions to the Ministry of Industrial Building and the Ministry of Building Towns and Settlements to dismantle steel and cast iron conduits, also pipes and tubes, which are at present not in use and not intended for future usage. These measures should be put into effect particularly in the voivodships of Szczecin (Stettin), Koszalin (Koeslin), and Zielona Gora (Gruenberg). The materials thus obtained are to be placed at the disposal of the Ministry of Mining to relieve the shortage of materials necessary for the construction of new water and gas pipes.
